

Operational structure

HoldCo's organisational design was driven by the following key guiding principles:

- lean holding company – in line with the regulator's mandate to be a non-operating entity;
- critical corporate centre functions – Finance, Risk Management, Company Secretariat, Strategy, Internal Audit, Investor Relations, Marketing and Corporate Communications;
- focus on setting Group standards and monitoring compliance for the Group e.g. HR and IT standards;
- synergy benefits from operating structure to be balanced against incremental costs; and
- oversee the bank and non-bank subsidiaries to ensure proper capital utilisation across subsidiaries.

These principles were the central considerations for the identification of HoldCo functions, and the roles and responsibilities of each of those functions.

Below is the organisational structure and operating model of FBN Holdings Plc.
